**DEPARTMENT OF SCIENCE AND HUMANITIES**  
**LANGUAGE TRAINING PROGRAMME-A REPORT**

The Department of Science and Humanities conducted Training Programme for first year students for the academic year 2019-2020. The programme was offered to the students on 06.08.2019 (Odd semester) and 09.01.2020 (Even semester). Language Training is a powerful tool for improving communication competence for the students. It's a lifelong process where students can build self-awareness. Keeping this in mind, the department organized the Language Training Programme for the first year students. A pre assessment test was conducted for the students and they were segregated on their performance as fast learners and slow learners. Separate modules were prepared for them.

Listening, Speaking, Reading and Writing are the four pillars of effective communication. These communication skills are essential in all stages of life to help the students a better person. The department developed training modules in reading skills: phonemic awareness, fluency, vocabulary, and reading comprehension as well as a comprehensive module in writing skills. Teaching phonemic is the foundation to learn reading and spelling for the students. Teaching fluency includes guided oral reading and independent reading. Students who read fluently will easily recognize new words, read with greater speed, accuracy and expression; and better understand what they read. Reading comprehension is a form of word recognition and language comprehension where students can practice and execute the given ideas. The writing module seek to
