SUB: CONDUCT OF NATIONAL LEVEL SEMINAR

Dear Madam,

1. At the outset I would like to congratulate your team for successfully conducting the national level seminar on "Hybrid Optical-Acoustic Autonomous Underwater Vehicle (AUVs) Swarms for Marine Environment Monitoring" on 12.07.2019 at the Akshaya College Premises. The event was organized in a very professional manner and I am sure all participants especially the young college children would have immensely benefited from the programme.

2. Since the subject of the seminar predominantly dealt with maritime matters, it was an honour to share my views as a user with the students, faculty and the DRDO representatives. We look forward to more such engagements.

Thanking you,

Yours' sincerely,

REPORT
On
DRDO_NRB Sponsored
One Day National Level Seminar on
“Hybrid Optical–Acoustic Autonomous Underwater Vehicles (AUVs)
Swarms for Marine Environment Monitoring”

Highlights of the Event

Preamble:

The main motto of the programme was to motivate the students to be take part in maritime force. This seminar was exclusive in that it blowouts information from eminent practitioners and professors from Engineering Institutions and collaborate with students from engineering, and science disciplines: researches: entrepreneurs: and research management professionals to communicate across disciplines and move an idea, all the way from basic research to real time application. This seminar serves as the first wave of an outreach program on “Hybrid Optical–Acoustic Autonomous Underwater Vehicles (AUVs) Swarms for Marine Environment Monitoring” for engineering graduates. The graduates has the opportunity to discuss about the various approaches they use on presenting science and technology as well as on creating and sustaining their interests in this fields through various sessions. These sessions encourage the students to showcase their talents to help in the promotion of science and technology, particularly future warfare.

One remarkable experiment in this direction has been the initiative taken by Akshaya College of Engineering and Technology. This seminar has been successfully organised on July 12th 2019.

Inaugural Function:

- Akshaya College of Engineering and Technology, Coimbatore has organized DRDO-NRB Sponsored-One Day National Seminar On “Hybrid Optical Acoustic Autonomous Underwater Vehicles (AUVs) Swarms for Marine Environment Monitoring” on 12th July 2019 at the college Conference Hall by 9.30 am.
- **Principal Dr.J.Jaya**embarked the function with welcome address and encouraged the students to utilize the session.
- **Dean (Academics) Dr.N.Kathiravan**felicitated the gathering.
- **ShriSurendra Kumar**, Assistant Director, DRDO-NRB, New Delhi has enthusiast the gathering with the information on Naval Research Board. He emphasized the Aim, Vision, Mission and future scope of the NRB. He also explained about the core competence of NRB during his speech. In his presentation he explained about the

Thrust Areas like Aeronautics, Armament, Life Science and Navy on which NRB is focusing.

- **The Chief Guest, Cmde Ashok Rai, Commanding Officer, INS Agrani, Coimbatore,** In his inaugural address, motivated the students with his enlightening speech in the topic of "Indian Maritime-Security, India's prosperity and resources, make in India venture and establishment of centres of excellence in university and colleges." In his speech, he highlighted the strategic growth of Technology used in underwater and the increased employability in the present world scenario. He also insisted that students should equip themselves according to the changes in the world.
- In his speech, **Capt. Sunil Balagopal, Master Mariner(FG), Coimbatore Marine College** explained the importance of Swarming, Underwater optical Communication system for Marine Group, relationship between autonomy, sensing, navigation and control on unmanned marine vehicles. He also discussed about underwater acoustic system and explained the developments of AUVs.
- **Thiru KRN Manoj,** Corporate Project manager, SS Techno vision, Coimbatore discussed about High band and high capacity for information transfer underwater, Underwater optical communication links by channel coding, Unmanned underwater vehicle network and also about Robotics in unmanned vehicles
- **Dr.A.Rajendran, Professor, Karpagam College of Engineering** discussed the underwater optical communication link. He advised and motivated the students to build and explore new innovations.
- **Prof.wg.cdr.R.TRamamujam(Retd)** motivated the students to be clear in basics of their respective domain and explained the role of total quality management in aviation field. Students interacted with the Guests and all their doubts were clarified by the experts. Around 250 students and faculty members from the parental institution and nearby colleges have attended the programme and benefited maximum.
- The program was a phenomenal success as it concerned with quality education through interaction with navy related resource persons to provide knowledge to the students. They also received participation certificate.
- The vote of thanks was proposed by Dr.S.RBarkunan, Head, Department of Electronics and Communication Engineering and the program successfully ended with the National Anthem.

Valedictory Function:

During the valedictory session of the event, the participants gave feedback about the seminar and Mr.N.A.Raj Giri, Programme Coordinator, Head International Affairs, Akshaya College of Engineering and Technology, Coimbatore along with Shri Surendra Kumar, Assistant Director DRDO-NRB, New Delhi, gave the participation certificate to participants. The session ends with vote of thanks by Dr.Bargunan, Head of the Department, Electronics and Communication Engineering.

Outcome:

This seminar serves as the first wave of an outreach program on "Autonomous Underwater Vehicle (AUVs)" for engineering graduates. The graduates has the opportunity to discuss about the various approaches they use on presenting science and technology as well as on creating and sustaining their interest in these fields through various sessions. These sessions encourage the students to showcase their talents to help in the promotion of science and technology, particularly future navy. professors from Engineering Institutions and collaborate with students from engineering, and science disciplines and move an idea, all the way from basic research to real time production.

At this point I am elucidating some beneficial outcomes of this seminar as follows:

- This seminar fill the gap between engineering and real time environment through understand the principles and problem solving skills of engineering with the technologies used in DRDO Naval Research Board (NRB).
- Participants can identify navy oriented application and the technologies used in sophisticated weapons.
- This seminar provides technological innovations for future maritime force and the significant changes in naval infantry/marine corps. It discussed about research, development, prototyping, test and evaluation, and transfer of technology activities for future maritime force. The strategic offensive role of a navy is projection of force into areas beyond a country's shores (for example, to protect sea-lanes, ferry troops, or attack other navies, ports, or shore installations).
- The strategic defensive purpose of a navy is to frustrate seaborne projection-of-force by enemies. The strategic task of the navy also may incorporate nuclear deterrence by use of submarine-launched ballistic missiles. Naval operations can be broadly divided between revering and littoral applications (brown water navy), open-ocean applications (blue-water navy).

Dear Sir/Madam,

The Council has released the 1st instalment of grant-in-aid to your institute under PMKVY-TI scheme for the AY 2017-18 to run the recommended courses.

As per the Guidelines of the scheme, 2nd instalment is due immediately after incurring expenditure of 70% of the grant released and 70% students continuing the course.

It has been observed from the records your institute has not

Dr. J. JAYAM M.Tech Ph.D
PRINCIPAL
Abhyasa College of Engineering and Technology

submitted the required documents for claiming 2nd instalment of grant.

You are therefore requested to submit the Utilization certificate (UC), statement of expenditure and upload the details of students continuing the course on the AICTE portal at the earliest, so that the Council can release the 2nd installment of grant at the earliest.

If you have already sent above said documents please ignore the mail.

Dear Madam,

Sub: 1st Installment of Programme/s Sanctioned under DST-NIMAT Project 2016-17

This is with reference to the Agreement signed between EDI and your organisation for conducting programmes under DST-NIMAT Project 2016-17 to create techno-entrepreneurs and resource persons through Entrepreneurship Development Programme strategy.

To facilitate the programme implementing agencies (PIAs), from 2016-17, we have changed the sanction process cycle to provide adequate time for the quality implementation of programmes. As per the norms, we are releasing current year fund only after completion of previous year's programmes and required documentation by PIA. But only for 2016-17, we are releasing the current year fund in exceptional case just to synergies both the years, 2015-16 & 2016-17.

As per the Agreement, 70% of the sanctioned amount per programme is to be released before commencement of the programmes. Accordingly, **Rs. 14000/-** has been credited to your account. The UTR No./Tran. ID is **IBKL160623600384**. Detail break-up of the total amount is as following:

Sr. No.	Programme / Activity	No. of Programme Sanctioned	1 st Installment per Programme (Rs.)	Total Amount of the Programme (Rs.)
1	EAC	1	14000/-	14000/-
Total				14000/-

You are requested to please send us the receipt for the same and start the actions as per the action plan.

Thanking you, with regards,

Yours sincerely,

Prakash Solanki
