

AKSHAYA

COLLEGE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, New Delhi and Affiliated to Anna University, Chennai-An ISO 9001:2015 Certified Institution)

Kinathukadavu, Coimbatore - 642 109.

TEACHER TRAINING POLICY

The members of faculty are trained periodically in the following areas by internal as well as external sources.

- Teaching – Learning Process
- Skill and Knowledge upgradation
- Human behaviour.
- Research Methodology
- Project Based learning

A workshop on “Teaching – Learning Process” guided by “Outcome Based Education” is conducted every year in the college to understand and review the system practiced at the institution.

The members of faculty are involved in continuous upgradation of skill and knowledge related to curriculum and syllabus as well as on the content beyond syllabus through “Faculty Development Programmes” organised in the college and other higher educational institutions.

The changes in the attitude of young people are guided by their behavioural aspects. The human behaviour is the factor to be understood by the teachers to maintain a sound relationship with the students. The mentorship programme is organised every year in the college with the help of psychologists and philanthropists.

A teacher is essentially a learner and researcher. A workshop/Seminar is organised every year in the college by inviting experts from Academic/industry to refresh the knowledge on research methodology.

Teachers are encouraged to take up internship in industry and work on industry linked (specific) projects. The students are involved in project based learning through the guidance of these teachers.

On-duty leave and sponsorship to the members of faculty to attend the above programmes are borne by the college Management.
