

SCIENCE CLUB

Science Club is a dynamic and inclusive organization committed to fostering a love for science among students, educators, and enthusiasts alike. Science Club was established in the year 28.02.2014 in Our College. It offers chance to do science related activities that extend and enhance the science that they experience in the classroom. Through engaging activities, hands-on experiments, captivating discussions, and exciting projects, we aim to empower our members to explore, learn, and grow as budding scientists and lifelong learners.
